Redefining Your Dining

Our Story

From the hands of tribal artisans to your tables.
Ceramics for spaces that hold warmth, people and memory. Each Nugu Handmade piece reflects not only skilled craftsmanship but also the quiet beauty of nature.

The dinnerware is finished in subtle, earthy tones — inspired by river mud, forest bark, stone, ash, and the fading hues of dusk over the hills. These natural glazes aren't loud — they whisper elegance. They are designed to complement your food, not compete with it, offering a calm, grounding presence on your table.

All products are food-safe, microwave safe, dishwasher and freezer friendly, and made using environmentally responsible processes and materials
